What A Pleasant Surprise

A little and lovely friend visited us earlier. Let me introduce him to all of you! His name is Fat Don. He is gentle, friendly, and non-aggressive. Most of our colleagues met guide dog for the first time, so they were very excited and curious. They had a pleasant afternoon interacting with Fat Don and taking pictures together.

	
<p>FAT DON PROFILE Breed : Labrador Gender : Male Date of Birth : Aug 2017 Country of Birth : Hong Kong Origin : Local bred by Hong Kong Seeing Eye Dogs Services</p>	

Fat Don is a Seeing Eye Dog, also known as 'The Eyes of Blind', is a specially trained dog to serve the visually impaired. Upon completion of training by professional trainers, Seeing Eye Dogs can guide the users to move freely in their community. In addition, they serve as the companions of the users who would regain their confidence and dignity to be in touch with the community and live independently.

Cultivating A Guide Dog Friendly Campus

The Academy is a platform for students to learn and grow, and we endeavour to cultivate a safe and welcoming learning environment by ensuring a healthy, harmonious, and friendly campus where they can achieve their potential in a wide range of academic and non-academic learning areas! Today, we are pleased to announce that the Academy has become a guide dog friendly campus to promote the acceptance of guide dog service. A welcome guide dog sticker has been posted at the entrance of the Academy to indicate that the visually impaired and their guide dogs can pass through the campus unimpeded! By executing this arrangement, it is hoped that the meaning of respect, care, empathy,
