

World Talk: Debunking Stereotypes - "Asian vs. Western" Education (HUMT1570)

<p>Introduction</p>	<p>Education is praised as the most important factor in socio-economic development, and we often hear about the "role-model" education systems of Finland, for example. For something as important and as fundamental as education, you would expect more of a consensus across different countries - the reality is different, however! There are almost as many different education systems as there are countries, each bringing its own cultural and economic baggage and history.</p> <p>Join us for an afternoon of casual talk and debate, with a multinational panel of university students from around the world, to explore education systems and paradigms, with a colourful mix of opinions, jealousy and regret. We will dive into topics such as "Asian education", "Western education", but also whether that's the full story or whether there is more to it.</p> <p>Bring along some passion to debate and talk, and a bit of respect and cultural sensitivity, and enjoy building some global perspectives!</p>							
<p>Programme Type</p>	<p>Introductory Talk in Humanities</p>							
<p>Speaker</p>	<p>Inter Cultural Education A group of international students invited from different countries</p>
