ROBOTS! TO THE SEA

15 August – 16 August 2013

Service Provider: Hong Kong Robotic Olympiad Association

In the water, people are not as agile as they are on the land due to the body limitations. However, people make various kinds of water robots to accomplish tasks for them such as salvage, exploration and construction, etc. In this programme, you will learn and apply mechanics and machine theories to design a marine robot for a scavenger hunt. What will your robot find? Something valuable or valueless?
