

Fri-vers' nite: Search for your origin (PGSS0011)

Introduction

"No man is an island..." (by John Donne) and hence through "Fri-vers' nite", which is a platform provided to you for knowledge and experience exchange, as well as sharing your points of view on certain topics with other gifted peers and even our alumni or elites in town when they are being invited. Not only will you gain insights from other gifted persons, but also build a social network with this group of like-minded and make-a-difference driven people. Usually we will meet on the 1st Friday of every month except special arrangement.

Family is where you begin and it is the very first social context where we learn and practise ways to interact with others. Such experiences make impacts on us to get along with others as we reach out to have contact with the world. Your family might mirror very closely with some of the situations in school/community, and it also reveals how you get along with others as in your family.

To have better self-understanding, it is important for you to explore how your traits associate with giftedness, and how they manifest in the family/school/community. Besides, you are given the chance to learn about how the family origin shapes your personality and social style, etc. Come share with us about your search and found in this Frivers' nite.

Facilitator

Ms Arie Lee graduated with a Bachelor's degree (Hons) in Social Work from the University of Hong Kong and a Master's degree in School Guidance and Counselling from the Chinese University of Hong Kong. She is a registered social worker and has been a student counsellor serving both secondary and tertiary institutions over ten years before joining the HKAGE. Besides, she is a qualified facilitator of Personality Dimensions® (psychological tool for assessing personality strengths and preferences). She currently serves as a Guidance Counsellor who is responsible for personal growth and social development programmes for gifted students at the HKAGE. With an understanding of the social and emotional needs of gifted children and youth, she has solid experience in exploring and designing various learning opportunities for enhancing their personal growth and social development.
