### Jockey Club Gifted in Bloom--Harmony in Heart & Mind Programme

# Shifting Worlds, Shifting Selves: Reading & Writing in Different Fiction Genres (ELLS3213)

#### Introduction

A whole new academic programme sponsored by the Jockey Club “Gifted in Bloom – Harmony in Heart & Mind” Programme shifting the focuses from “cognitive (knowledge)” to “affective (sensitivity, reflection, understanding, appreciation, expression, self-exploring, moral values, etc.)” aspect is now open for application! We hope that you will become knowledgeable as well as sensible, to feel other people’s feeling, to sense other people’s emotion, and step into others’ shoes, becoming a person with “empathetic understanding” skills! And finally, we hope you can locate yourself in the amazing world and project your visions to a greater future!

The programme features the work of some of the most representative authors in English-language literature and world literature from the late 19th century to the present, as it is designed to give participants an introduction to different fiction genres and literary movements. In addition to the characteristics of each genre and literary technique, emphasis is placed on the contemporary setting of individual works, with a view to enhancing students’ awareness of the relationships between literature, individual, culture and society. The inclusion of texts by authors from different regions and cultures is intended to broaden students’ perspectives on literature beyond the AngloSaxon focus that features in some literature courses. Attention is also given to tailoring a balanced mix of male and female authors included in the programme.

The programme also features a heavy writing component that stresses self-recognition, self-revelation and creativity. Students will be encouraged to take inspiration from the texts discussed in class and contemplate issues surrounding the individual versus the collective, while drawing on their personal experience and ideas in their writing assignments. The level of complexity of the writing assignments will be enhanced throughout the course, as students move from personal stories to reflection on society, and from realistic writing to fantastic and hybrid-form writing. Two reflective journals will be designed for students to share their thoughts on how the programme has impacted their thinking of literature, and their views on the relationship between literature and their conception of self / their own lives.
