

Adaptive Leader (LEAP1121)

Introduction An Adaptive Leader is quite different from a traditional leader. An Adaptive Leader is required to create a caring and encouraging environment for the team to gain a sense of belonging which is conducive to goal achieving. An Adaptive Leader should possess a high level of both Adversity Quotient (AQ) and Emotional Quotient (EQ), be able to analyse various situations, fine-tune the strategies to prevent foreseeable conflicts and bring the team members closer.

In this programme, you will have a chance to overcome several group and individual challenges, including High-event Adventure, Outdoor Orienteering and Wild Cooking. You will also have chances to open up your mind, gain more experiences in handling emergency situations, and eventually improve your AQ and EQ to act as an Adaptive Leader in the future.
