Fri-vers' nite: Dr Stanford's Rhapsody

(PGSST0012)

Introduction

'A cord of three strands is not quickly broken,' said King Solomon, who was full of wisdom. Hence, we would like to present to you the 'Fri-vers' nite', a platform for knowledge and experience exchange, to facilitate sharing of your points of view on certain topics with other gifted peers. Not only will you be able to gain insights from other gifted peers, you will also build a social network with a group of like-minded and proactive people.

Everyone needs to make decisions in career planning, so do gifted students. In the coming 'Fri-vers' nite', we will talk about the challenges and opportunities faced by gifted students in their career planning in the first hour. In the second hour, a pathologist of Hong Kong public hospital will be invited to share on the medical profession and various medical issues as well as pathological knowledge, so that you will have a deeper understanding of Pathology – which is often referred to as 'Doctor's Doctor'. See you at the coming 'Fri-vers' nite'!

Programme Type

Talk

Mr Nelson Ng
Programme Development Officer, HKAGE

Instructor

Dr Stanford Li
Dr Stanford Li is the pathologist of Hong Kong public hospital. He graduated from Wah Yan College, Hong Kong, with distinctive results in the Hong Kong Certificate of Education Examination and admitted to the Faculty of Medicine of the University of Hong Kong directly after Secondary Six. Recently he started writing his blog 'Stanford's Rhapsody' <http://drstanford.blogspot.com/>, to elaborate some medical issues and to share the related knowledge with the general public. His blog on Facebook has more than 3000 followers.
