

MATHS IGNITION – COMBINATORICS

(MATS1111)

<p>Introduction</p>	<p>Maths Ignition is an introductory programme. It is designed as a series of courses of different topics and is developed as a bridging programme to the 'IMO Training' programme.</p> <p>Maths Ignition – Combinatorics is the first course of the series. It aims to broaden students' knowledge in combinatorics on the basis of junior secondary mathematics curriculum through exploration and investigation approach. Students who have completed 2 out of 5 courses in the Maths Ignition series might be considered for direct admission to the "Introduction to Olympiad Mathematics 2020 (Phase I)" (MATS1151), an intermediate-level programme offered by IMOHKC.</p> <p>This programme is co-organized with International Mathematical Olympiad Hong Kong Committee (IMOHKC)</p>

Aptitude Test

Students who wish to apply for this programme must take a general aptitude test on **18 May 2019 (1:30 p.m. – 3:30 p.m. or 4:00 p.m. to 6:00 p.m.)**.

This general aptitude test consists of 100 multiple choice questions which covers a wide range of topics in mathematics. The purpose of the test is to figure out the applicant's knowledge in different fields of mathematics in order to choose the most suitable students for different programmes. Neither under-qualified nor over-qualified students will be admitted.

The next aptitude test is scheduled on **10 Aug 2019**. The result of an aptitude test will be valid for one year. If a student takes the test more than once, the latest result will prevail. The following table lists the programmes for which the results of this general aptitude test will apply
