

Fri-vers' nite: Do You Know

How to Deal with AI?

(PGSST0014)

Introduction

'A cord of three strands is not quickly broken,' said King Solomon, who was full of wisdom. Hence, we would like to present to you the 'Fri-vers' nite', a platform for knowledge and experience exchange, to facilitate sharing of your points of view on certain topics with other gifted peers. Not only will you be able to gain insights from other gifted peers, you will also build a social network with a group of like-minded and proactive people.

Under the Fourth Industrial Revolution, the human society today is faced with different opportunities and challenges brought along by various new technologies. In the coming 'Fri-vers' nite', we will invite a guest speaker, Mr Victor Yip, to share with us the most updated development of artificial intelligence and financial technology. As a gifted person, Victor will also share about his life stories and how to nurture the essential soft skills in the 21st Century.

Programme Type

Talk

Instructor

Mr Victor Yip

Victor graduated from PLK Centenary Li Shiu Chung Memorial College in 2008 and subsequently HKUST's Global Business programme in 2011. He started his career in banking with Bank of America Merrill Lynch. Four years later he took up the Chevening Scholarship from the Foreign and Commonwealth Office of the UK Government to pursue a Computer Science master's focusing on data science and artificial intelligence. After a few years of commercial research work on teaching machines to read in the UK, he set up a fintech & travel tech startup in Hong Kong Science Park.
