

Introduction to Computer Programming Using C++ (E1COD001C)

Introduction	<p>This course introduces computer programming in C++. Students will learn the functional elements of a computer system, problem solving, creation of computer applications, and basic object-oriented programming concepts. Students will be able to apply these computing skills in various disciplines. This course also provides a foundation to further study in other computing topics.</p> <p>This course is co-organised with Department of Electronic Engineering, The Chinese University of Hong Kong (CUHK).</p>
Programme Type / Level	Coding Course (Level I) (Token-required)
Instructor(s)	Dr LAW Yat Chiu (Lecturer, Department of Computer Science and Engineering, CUHK)
Pre-requisite	<ul style="list-style-type: none"> Basic computer skills in Windows or macOS.
Target Participants	<ul style="list-style-type: none"> S1-S3 HKAGE student members Class size: 30 <p>This programme is the same as Introductory Course in Computer Programming: Introduction to Computer Programming Using C++ (TECS1441) in 2018/19 school year.</p>
Medium of Instruction	English with English Handouts
Certificate	<p>E-Certificate will be awarded to participants who have:</p> <ul style="list-style-type: none"> Attended AT LEAST 5 sessions AND Completed all the assessments with satisfactory performance.
Intended Learning Outcomes	<p>Upon completion of the programme, participants should be able to:</p> <ul style="list-style-type: none"> write, understand, compile, and debug C++ programs; write programs using the basic programming elements such as variables, data types, selection and looping control structures, and functions; write applications using elementary data structures such as 1-D and 2-D arrays, etc.; instantiate classes and invoke methods.
Screening	<p>Please answer the screening question in the online application form. *The screening question is designed to help the applicant understands the course level and the course content. The question must be answered by the student applicant and it can only be attempted once. The answer cannot be changed once the application is submitted. Selection is based on students' performance in answering the question. Only students who can demonstrate motivation and the knowledge of Coding in the screening question can be enrolled in the programme.</p>
Application Deadline	<p>16 Nov 2020, 12:00 n.n</p> <p>Application Result Release Date 27 Nov 2020</p> <p>If student members withdraw from the programme after the Application Deadline, the token will be deducted.</p>

Schedule

Session	Date	Time	Venue
1	9 Jan	10:00 a.m. – 1:00 p.m.	The Chinese University of Hong Kong – (To be confirmed)
2	16 Jan		
3	6 Feb		
4	17 Feb	2:00 p.m. – 5:00 p.m.	
5	27 Feb	10:00 a.m. – 1:00 p.m.	
6	13 Mar		
7	27 Mar		

Session	Date	Time	Venue
1	19 Jul	2:00 p.m. – 5:00 p.m.	Electronic Engineering Computing Laboratory, Room 402, Ho Sin Hang Engineering Building, The Chinese University of Hong Kong (map)
2	26 Jul		
3	2 Aug		
4	9 Aug		
5	16 Aug		
6	23 Aug		
7	30 Aug		

Sample Note

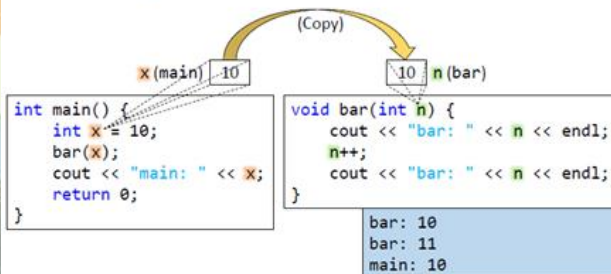

if-else Statement: Syntax

```
if (expr)
    statement_1;
else
    statement_2;
next_statement;
```

- Allows us to conditionally perform one of two tasks

Passing Parameter by Value

- **x** and **n** have their own space in the memory
- During the function call, only the value of **x** is copied to **n**. Updating **n** does not affect **x**
