

## Inside Out Series: Self Concept (I)

(F2IOS001W2)

### Introduction

As a member of the HKAGE, you've probably been identified as "gifted" somewhere along the way, but do you have a clear idea of what "gifted" means? Can you name some common characteristics that gifted students share? Have you ever heard of "asynchronous development"? We will be having the first session of this series of workshops and learning various theories of giftedness and common characteristics of gifted students to understand more about ourselves.

### Introduction of the Series

Inside Out Series is a workshop series related to affective education, it covers topics like self-concept, self-management and social relationship of gifted students. This series aims at fostering gifted students' whole-person development from the inside out by enabling them to understand themselves, enhance their self-management skills, and eventually build positive social relationships with the outside world. In the workshops of the Self Concept Series, you will be able to learn on various topics related to the self-concept of gifted students, including a list of giftedness theories, explore our strengths and weaknesses, view from others' perspective etc, and most importantly, understand more about ourselves.
