Coding Course (Level III):

Reimagine Hong Kong with Minecraft Education Edition

Mr Joe Man, Senior STEM Instructor, Cobo Academy Hong Kong
Mr Chris Chow, STEM Instructor, Cobo Academy Hong Kong

Application Deadline
21 Jan 2022 12:00 n.n

Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. Apply building and coding skills in Minecraft Education Edition (MCEE) to create a digital game in the theme of re-imagine Hong Kong
2. Understand engineering design and application of Redstone circuitry
3. Create a digital game by using code and Artificial Intelligence (AI) to automate effectively
4. Collaborate with peers to ideate, build and present their digital game project

◆ Introduction

Digital transformation is upon us. Can you imagine what Hong Kong could be like in 10 years while technology continues to evolve?

This course will introduce students to digital transformation, AI, coding and game design. Building on fundamental coding concepts, engineering and design in Minecraft Education Edition (MCEE), students will unleash their imagination and work in teams to create Minecraft worlds and games to conceptualize their future Hong Kong.
