The Hong Kong Academy for Gifted Education

Be a Game Designer (TECT1211)

Introduction	Kodu is a free game design software. With a user-friendly interface, it is very accessible to beginners. The user can create exciting games with vivid visual image by writing simple scripts. This programming environment is compatible with the Xbox, i.e. it can be used to create games that run on the Xbox. Your original game starts with Kodu.
Programme Type	Computer Programming (Level 1) (Non Token-required) (Elective Programme)
Speaker	Mr. Frankie Tam and Ms. Clara Hui are representatives of Hong Kong Digital Game-Based Learning Association, which is dedicated to promoting game-based learning to parents, students and teaching professionals. The association aims to develop students' problem-solving skills, logical thinking and aesthetic sense by teaching them to design games. Mr. Tam and Ms. Hui are experienced in teaching; they have frequently taught Kodu courses at local primary and secondary schools.
