

# GENETICALLY MODIFIED FOOD 101

(TECT1602)

## Introduction

In recent years, different health issues including pandemic influenza and chronic diseases are highly concerned by the public. Apart from these, food safety is another major concern. You may have heard about genetically modified food (GMF) but may not have much knowledge about it. This talk will give you an overview on GMF from different perspectives.

## Programme Type

Introductory Talk in Science ([Non Token-required](#))

## Speaker

Dr Yue Ying Kit, Patrick  
An experienced educator for STEM education, is a well-trained expertise in the field of biomedical and toxicological research. With the funding support from the Innovation and Technology Commission, HKSAR, Dr Yue set up the R&P Technology Ltd (an HKBU spin-off company) in 2014. In recent years, Dr Yue is enthusiastic in promoting “PopSci” and STEM education at the community level.
