

THE MIRACULOUS STEM CELLS (TECT1603)

Introduction

What are stem cells?

In this talk, we will discuss the characteristics of stem cells and their applications. Why is it so difficult to find a matched bone marrow for transplant? What are the recent trends in clinical studies for hematopoietic stem cells? How about regenerative medicine and the related requirements and guidelines?

The speaker, Ms Vivien Leung obtained a Master of Science degree in Biomedical Science and is a Registered Medical Laboratory Technologist (Part I). She has joined a private cord blood bank and started the journey in stem cell related knowledge, researches and applications since 2005.

Programme Type

Introductory Talk in Biotechnology ([NON Token-required](#))

Speaker

Ms Vivien Leung
(Registered Medical Laboratory Technologist (Part I))

Target Participants

- P4 – S3 HKAGE student members
 - Class size: 50
- * *First-come, first-served*

Language

Cantonese

Application Deadline

11 Nov 2019, 12:00 n.n.

Schedule

Date	24 Jan 2020 (Friday)
Time	11:00 a.m. - 12:30 p.m. (Please arrive at 10:45 a.m. for registration)
Venue	Room 403, HKAGE
