

Algebra in Daily Life (E1MAT001T)

Introduction

“Algebra” originated from The Compendious Book on Calculation by Completion and Balancing, a book on algebra written by the renowned Arabic mathematician Al-Khwarizmi (circa 780-850 AD) in 825 AD. Algebra has been developed as an integral part of our daily lives nowadays. Have you noticed it in your life? Simple things from bus route letters to ID card information are all related to algebra. The seminar will take you to see how algebra is applied in our lives.

The speaker **Dr. LAU Chi Hin** obtained his BSc degree from CUHK and PhD degree from HKU. He has almost twenty years of experience in secondary and tertiary education. During his teaching career, he was involved in many different programmes in gifted education organised by CUHK, HKAGE, Education Bureau, etc.

Programme Type

Introductory Talk in Mathematics ([NON Token-required](#))

Speaker

Dr. LAU Chi Hin

Target Participants

- P4 – P6 HKAGE student members
- Class size: 40

First-come, first-served

Language

Cantonese

Application Deadline

2 Nov 2020, 12:00 n.n

Schedule

Date	27 February 2021 (Saturday)
Time	10:30 a.m. – 12:00 n.n. (Please arrive at 10:15 a.m. for registration)
Venue	Room 105, The Hong Kong Academy for Gifted Education
