

# Life Education Series: Career and Life

## Planning Education (F1LES005T)

### Introduction of the Talk

Life planning is an ongoing process for personal fulfillment, with different foci at different stages of the life time. At the schooling stage, life planning education plays a significant role in fostering students' self-understanding, personal planning, goal setting, reflective habits of mind and articulation to progression pathways. Everyone needs to make decisions in career planning, so do gifted students. This Life Education series will talk about the challenges and opportunities faced by gifted students in their career planning in the first hour. In the second hour, a HKAGE alumnus will be invited to share about his experiences and challenges faced as a scientist. We hope that participants will get some inspiration from his sharing.

### Introduction of the Series

In response to the developmental needs of gifted students, the Life Education series discusses topics of affective education such as self-concept; self-management; personal attitude, beliefs and values; emotion management; career and life planning education; social and communication skills; leadership training and problem-solving skills and resilience (EDB, 2015). Professionals, alumni and gifted youth are invited to share their personal stories and inspire students in this platform.

### Programme Type

Talk

### Instructors

#### Mr. Ka Wa TSANG

Ka Wa is a HKAGE alumnus and now is a Ph.D. candidate studying gravitational waves in the Dutch National Institute Subatomic Physics, Nikhef. After obtaining his Physics Bachelor's degree with first-class honours in the Chinese University of Hong Kong, he worked on particle physics data analysis at CERN under the supervision of Prof. Ming Chung CHU. He is interested in machine learning and has developed an AI to play board games. He is now working on a Cantonese YouTube channel (發夢家) of popular science.

#### Mr Nelson NG

Programme Development Officer, Affective Education Division, HKAGE

### Target Participants

- S1 to S3 HKAGE student members
- Class size: 50
- \*First-come-first-served

## Medium of Instruction

Cantonese

## Intended Learning Outcomes

Upon completion of the talk, participants should be able to:

1. Recognise the challenges and opportunities faced by gifted students in their career planning
2. Recognise the challenges and opportunities faced by scientists

## Application Deadline

**25 Jan 2021, 12:00 noon**

## Schedule

Date	30 January 2021 (Saturday)
Time	3:30 p.m. – 5:30 p.m. (Please arrive at 3:15 p.m. for registration)
Venue	Online Platform

## Remarks

### Things to prepare & attention notes:

1. The academy reserves the right to cancel any courses if there are insufficient applicants.
2. The staff of the HKAGE will carry out class observation, photo/video-taking in some programmes or/and keep students' work for the purposes of programme evaluation, research or/and demonstration.
3. The programme may be rescheduled or conducted online, subject to development of Coronavirus Disease 2019 (COVID-19) and EDB's latest announcement on face-to-face programmes. Please pay close attention to email notification and announcement on the HKAGE website.
4. In the event of inclement weather, class arrangement will be based on "Arrangements for student programmes / activities in inclement weather"  
Please refer to the HKAGE website for more details:
