## Talk

# Polar exploration: The impact of global warming on the polar regions

Professor Ho Kin-Chung, BBS, JP  
Polar Research Institute of Hong Kong  
Founder

**Application Deadline**

**31 May 2022**

**12:00 noon**

## **Intended Learning Outcomes**

Upon completion of the programme, participants should be able to:

1. Recognize the ecology and biodiversity of polar regions ;
2. Understand the work of polar science research ;
3. Raise the awareness of protecting the Earth and global climate change ;
4. Broaden students` horizons and cultivate their worldview.

## ◆ Introduction

Global warming has caused different disasters including hurricanes and tornadoes which have melted glaciers in the Polar regions. The survival of many creatures ranging from penguins and polar bears is also in danger. In this workshop, speakers will discuss the problem of global warming and the importance of polar scientific research.

The speaker, Professor Ho Kin-Chung, BBS, JP is the founder of Polar Research Institute of Hong Kong. He has a wide spectrum of academic interests including but not limited to water quality and water resources management, environmental policies and polar research etc. Professor Ho established the first scientific research based “Bauhinia Research Station” organized by Hong Kong people in Svalbard Isles of the Arctic region. It is hoped that the research station will become a place for Hong Kong to interact with mainland China and international teams to promote science and education.

## ◆ Schedule

| Session | Date    | Time                  | Venue |
|---------|---------|-----------------------|-------|
| 1       | 24 June | 5:00 p.m. – 7:00 p.m. | Zoom  |

## ◆ Target Participants

- S3 – S6 HKAGE student members in 2021/22 school year only
  - Class size: 100
- \* First-come-first-served.

## ◆ Application Start Date

16 May 2022

## ◆ Medium of Instruction

Cantonese

## ◆ Attendance

Students are **required to complete the feedback forms** to mark your attendance and for our further enhancement.
