

ASPIRATIONS: Young Engineers' Experiences

(ALE/ASP/003)

Introduction	<p>This 2-hour session includes experience sharing from three young engineers currently working in Hong Kong. Student members of HKAGE can get an insight into the professional engineering field as a young working person. Participants will also have an opportunity to interact with the speakers to find out more about the studies of engineering in higher education and the prospects of engineering and in Hong Kong.</p>
Collaborator(s)	<p>The Institution of Mechanical Engineers (IMechE) is an international professional non-profit institution with more than 170 years of history. The Young Member Section of IMechE, Hong Kong Branch works to promote the engineering profession and IMechE membership with young people through organising visits and facilitating seminars, strengthening communities, and campaigning for change.</p> <ul style="list-style-type: none">Website of the Young Member Section of IMechE, Hong Kong Branch: http://nearyou.imeche.org/nearyou/north-east-asia/hong-kong/hong-kong-young-members
Speakers	<ul style="list-style-type: none">Mr Peter HW WONG, Senior Associate, WSP (Asia) LimitedMr Yasir NAVEED, Senior Associate, Lynk GlobalMr Richard CHAN, Assistant Mechanical Engineer, Water Supplies Department, the Government of HKSAR
Programme Type	Talk (Non-Token required)
Target Participants	<p>S3 to S6 HKAGE student members Capacity: 49 at maximum <i>*First-come-first-served.</i></p>
Medium of Instruction	English and Cantonese
Schedule	<p>Date: 14 August 2020 (Friday) Time: 6:30 p.m. – 8:30 p.m. Venue: Room 403, The Hong Kong Academy for Gifted Education Zoom</p> <p><i>(Zoom is used as alternative/ supplementary mode of delivery due to pandemic disease conditions.)</i></p>

Programme of
the Event

- **Experience sharing**

Topics covered by speakers include:

- Senior secondary school and university academic journey: from subject choices to higher education pathways.
- Early career experience: how they end up in the current job.
- Features of their work: technical and non-technical aspects.
- Reflections and outlook for the future as a young person working in the engineering sector in Hong Kong.

- **Conversation with young engineers**

Participants will have an opportunity to chat with the speakers and YMS members to learn more about the daily lives and experiences of young engineers, as well as requirements of studying subjects at university level and early career expectations.

Intended
Learning
Outcomes

Upon completion of session, students should be able to:

- evaluate the prospects and challenges of a career in the professional engineering sector in Hong Kong as a young person.
- identify their interest in 1 or 2 engineering processes covered by the speakers, and,
- consider and make thoughtful decisions with regards to commitment to a future higher education pathway in engineering.

Application
Deadline

6 August 2020, Thursday (12 noon)

Enquiries

For enquiries, please contact Ms Christie SO at 3940 0101 (after language selection, press '6') or email to ale@hkage.org.hk.
