MATHEMATICS IS FUN – NO GAME, NO GAIN

8 – 29 March 2014

Service Provider: Jolly Thinker's Learning Centre Limited

Both Mathematics and board games are full of variations which make them very interesting. Many players think that the results of the board games are decided by sheer luck. In fact, by planning strategies mathematically, players can have greater advantage in the games. This programme uses different board games to teach related mathematics theories and to enhance students' analytical thinking, logical thinking, decision-making skill and communication skill. No Game, No Gain!
